PROFESSIONAL SUMMARY:

Early GRC professional with project experience supporting risk assessments, user access reviews, security control testing, and third-party vendor risk management. Gained practical exposure to the full GRC lifecycle through a cybersecurity GRC internship, building the controls, documentation, and processes. Working knowledge of SOC 2 and NIST CSF; coursework exposure to ISO 27001 and HIPAA. Seeking an entry-level IT Risk, Compliance Analyst, or IT Audit Associate role in the DMV area.

EDUCATION

University of Maryland
B.S in Information Science
GPA: 3.8/4.0

College Park, MD
Degree Expected, May 2026

SKILLS

Programming: Python, Java, SQL, HTML/CSS, Jupyter Notebooks

Frameworks: NIST, MITRE AT&CK, HIPAA, ISO 27001

Software: Tableau, PowerBI, Looker Studio, Git, Github, Zapier, CursorAI, Microsoft Suite

Interests: AI, Data Analytics, Cybersecurity, Data Governance, Information Security

EXPERIENCE

Virtual Cybersecurity GRC Analyst Intern

Lemonav

Virtual Simulated

June 2025-August 2025

- Completed full-scope UAR covering 50+ user-tool entries across 15+ employees and 25+ systems; documented SoD violations, flagged 5 access control red flags, and produced manager-approved revoke/retain decisions with IT evidence requirements.
- Assessed 11 enterprise risks across 10 categories using inherent/residual likelihood-impact scoring; produced risk register with mitigation plans and tiered remediation deadlines.
- Executed TPRM assessments for 6 vendors reviewing SOC 2 Type II reports, pen test findings, data retention policies, and SSO controls; analyzed CUECs and issued final risk recommendations.
- Tested 20 SOC 2 controls across Access Reviews, MFA, Onboarding/Offboarding, Incident Response, Encryption, Asset Inventory, and Logging; mapped each to control owner, evidence type, and C&A completeness criteria.
- Built Looker Studio risk heatmap and executive dashboard visualizing residual risk scores across all assessed categories, supporting audit readiness and stakeholder reporting.

Sports Science Intern

University of Maryland Athletic Department

College Park, MD

August 2024- Present

- Collected and validated performance data for 50+ Division I student-athletes weekly using Catapult systems, providing coaches with data to guide training and recovery strategies.
- Collaborated with 6 Strength & Conditioning coaches to process weekly data from 50+ athletes across Catapult and force plate systems, ensuring clean, timely datasets that supported strength coach led analysis of training loads, recovery status, and injury risk.
- Built interactive Power BI dashboards from historical game data, highlighting player load trends to support retrospective analysis.

Terrapin Tech

Student Lead

College Park, MD

July 2023- September 2024

- Delivered technical support to 10–15+ clients daily across Windows, macOS, and Linux systems resolving issues efficiently and reducing client wait times.
- Helped train 5+ new technicians, improving team productivity and accelerating ramp-up time for new staff.
- Composed 10–15+ detailed service tickets per day, enhancing documentation quality, and ensuring faster follow-up resolutions.
